26 July 2021

Dear Peter

**Plaza 1821 (17F/0913): Discharge of Conditions 11(vii)**

On behalf of The Regenda Group, I am pleased to confirm that the application for the above has been submitted today via the Planning Portal (ref. PP-10073097) for the discharge of Condition 11 part (vii).

The application consists of:

- Application Form;
- Condition 11-part (vii) documentation
  - *Moose Coffee Signage*

All other parts of Condition 11 were discharged via previous discharge applications and therefore part (vii) is the last part required for discharge and the details seek approval of a side elevation sign. This has previously been discussed with you during previous discharge applications and the Client has reduced this particular signage as previously advised by the LPA.

The planning fee has been paid via planning portal, following submission of the application.

I would be pleased to receive your confirmation that the application is registered and validated on the Council's planning system from today.

Yours sincerely

Ian Ford  
Associate
